

Individual Trap Report:

Bishop Macdonell Catholic High School
Trap # EQP-CLL-597

Your classroom made an important contribution to the Fall 2014 [School Malaise Trap Program](#) and helped to make it a huge success. Your trap collected a total of 124 specimens in week 1 and 17 specimens in week 2. Summed across the two weeks, your sample ranked 55 out of 59 for the total number of specimens collected. Within your sample, there were 77 species, which ranks your sample 53 out of 59 for species diversity. The species you collected came from several different groups (see pie chart below) and 13 species were *only* collected in your trap. Your class should be pleased to have made this contribution to the [International Barcode of Life](#) project, the largest endeavour in biodiversity science.
