

## Individual Trap Report: Brantford Collegiate Institute and Vocational School Trap # EQP-CLL-580

Your classroom made an important contribution to the Fall 2014 [School Malaise Trap Program](#) and helped to make it a huge success. Your trap collected a total of 370 specimens in week 1 and 657 specimens in week 2. Summed across the two weeks, your sample ranked 16 out of 59 for the total number of specimens collected. Within your sample, there were 169 species, which ranks your sample 7 out of 59 for species diversity. The species you collected came from several different groups (see pie chart below) and 29 species were *only* collected in your trap. Your class should be pleased to have made this contribution to the [International Barcode of Life](#) project, the largest endeavour in biodiversity science.
