

Individual Trap Report: Camp Heidelberg Nature Centre Trap # EQP-CLL-600

Your site made an important contribution to the Fall 2014 [School Malaise Trap Program](#) and helped to make it a huge success. Your trap collected a total of 1716 specimens in week 1 and 1076 specimens in week 2. Summed across the two weeks, your sample ranked 3 out of 59 for the total number of specimens collected. Within your sample, there were 166 species, which ranks your sample 9 out of 59 for species diversity. The species you collected came from several different groups (see pie chart below) and 68 species were *only* collected in your trap. Your site should be pleased to have made this contribution to the [International Barcode of Life](#) project, the largest endeavour in biodiversity science.
