

# Individual Trap Report: Centre Wellington District High School Trap # EQP-CLL-549

Your classroom made an important contribution to the spring 2014 [School Malaise Trap Program](#) and helped to make it a huge success. Your trap collected a total of 30 specimens in week 1 and 32 specimens in week 2. Summed across the two weeks, your sample ranked 52 out of 58 for the total number of specimens collected. Within your sample, there were 12 species, which ranks your sample 56 out of 58 for species diversity. The species you collected came from several different groups (see pie chart below) and 1 species was *only* collected in your trap. Your class should be pleased to have made this contribution to the [International Barcode of Life](#) project, the largest endeavour in biodiversity science.
