

Individual Trap Report: Collingwood Collegiate Institute Trap # EQP-CLL-624

Your classroom made an important contribution to the spring 2014 [School Malaise Trap Program](#) and helped to make it a huge success. Your trap collected a total of 241 specimens in week 1 and 638 specimens in week 2. Summed across the two weeks, your sample ranked 6 out of 58 for the total number of specimens collected. Within your sample, there were 76 species, which ranks your sample 5 out of 58 for species diversity. The species you collected came from several different groups (see pie chart below) and 12 species were *only* collected in your trap. Your class should be pleased to have made this contribution to the [International Barcode of Life](#) project, the largest endeavour in biodiversity science.
