

Individual Trap Report: West Hill Secondary School Trap # EQP-CLL-306

Your classroom made an important contribution to the [School Malaise Trap Program](#) and helped to make it a huge success. Your trap collected a total of 121 specimens in week 1 and 1164 specimens in week 2. Summed across the two weeks, your sample ranked 15 out of 81 for the total number of specimens collected. Within your sample, there were 115 species, which ranks your sample 6 out of 81 for species diversity. The species you collected came from several different groups (see pie chart below) and included 7 *new* species to our DNA barcode library and 15 species were *only* collected in your trap. Your class should be pleased to have made this contribution to the [International Barcode of Life](#) project, the largest endeavour in biodiversity science.
