

Individual Trap Report: Hagersville Elementary School Trap # EQP-CLL-495

Your classroom made an important contribution to the Fall 2013 [School Malaise Trap Program](#) and helped to make it a huge success. Your trap collected a total of 1631 specimens in week 1 and 1412 specimens in week 2. Summed across the two weeks, your sample ranked 1 out of 21 for the total number of specimens collected. Within your sample, there were 170 species, which ranks your sample 5 out of 21 for species diversity. The species you collected came from several different groups (see pie chart below) and included 8 *new* species to our DNA barcode library and 49 species were *only* collected in your trap. Your class should be pleased to have made this contribution to the [International Barcode of Life](#) project, the largest endeavour in biodiversity science.
