

Individual Trap Report: Wellington Hall Academy Trap # EQP-CLL-550

Your classroom made an important contribution to the [School Malaise Trap Program](#) and helped to make it a huge success. Your trap collected a total of 433 specimens in week 1 and 416 specimens in week 2. Summed across the two weeks, your sample ranked 28 out of 81 for the total number of specimens collected. Within your sample, there were 99 species, which ranks your sample 16 out of 81 for species diversity. The species you collected came from several different groups (see pie chart below) and included 13 *new* species to our DNA barcode library and 15 species were *only* collected in your trap. Your class should be pleased to have made this contribution to the [International Barcode of Life](#) project, the largest endeavour in biodiversity science.
