

Individual Trap Report: Woodcrest Public School Trap # EQP-CLL-551

Your classroom made an important contribution to the [School Malaise Trap Program](#) and helped to make it a huge success. Your trap collected a total of 38 specimens in week 1 and 330 specimens in week 2. Summed across the two weeks, your sample ranked 69 out of 81 for the total number of specimens collected. Within your sample, there were 38 species, which ranks your sample 78 out of 81 for species diversity. The species you collected came from several different groups (see pie chart below) and included 5 *new* species to our DNA barcode library and 2 species were *only* collected in your trap. Your class should be pleased to have made this contribution to the [International Barcode of Life](#) project, the largest endeavour in biodiversity science.
