

Individual Trap Report: Meaford Community School Trap # EQP-CLL-555

Your classroom made an important contribution to the [School Malaise Trap Program](#) and helped to make it a huge success. Your trap collected a total of 537 specimens in week 1 and 1550 specimens in week 2. Summed across the two weeks, your sample ranked 8 out of 81 for the total number of specimens collected. Within your sample, there were 133 species, which ranks your sample 2 out of 81 for species diversity. The species you collected came from several different groups (see pie chart below) and included 14 *new* species to our DNA barcode library and 21 species were *only* collected in your trap. Your class should be pleased to have made this contribution to the [International Barcode of Life](#) project, the largest endeavour in biodiversity science.
