

School Malaise Trap Program

Individual Trap Report: St. Mary's School Trap # EQP-CLL-573

Your classroom made an important contribution to the Fall 2013 [School Malaise Trap Program](#) and helped to make it a huge success. Your trap collected a total of 287 specimens in week 1 and 322 specimens in week 2. Summed across the two weeks, your sample ranked 19 out of 21 for the total number of specimens collected. Within your sample, there were 172 species, which ranks your sample 4 out of 21 for species diversity. The species you collected came from several different groups (see pie chart below) and included 4 *new* species to our DNA barcode library and 42 species were *only* collected in your trap. Your class should be pleased to have made this contribution to the [International Barcode of Life](#) project, the largest endeavour in biodiversity science.
