

Individual Trap Report:

Dunbarton High School
Trap # EQP-CLL-578

Your classroom made an important contribution to the [School Malaise Trap Program](#) and helped to make it a huge success. Your trap collected a total of 74 specimens in week 1 and 424 specimens in week 2. Summed across the two weeks, your sample ranked 59 out of 81 for the total number of specimens collected. Within your sample, there were 67 species, which ranks your sample 69 out of 81 for species diversity. The species you collected came from several different groups (see pie chart below) and included 10 *new* species to our DNA barcode library and 12 species were *only* collected in your trap. Your class should be pleased to have made this contribution to the [International Barcode of Life](#) project, the largest endeavour in biodiversity science.
