

# Individual Trap Report:

Holy Name of Jesus  
Trap # EQP-CLL-595

Your classroom made an important contribution to the spring 2014 [School Malaise Trap Program](#) and helped to make it a huge success. Your trap collected a total of 20 specimens in week 1 and 19 specimens in week 2. Summed across the two weeks, your sample ranked 56 out of 58 for the total number of specimens collected. Within your sample, there were 15 species, which ranks your sample 54 out of 58 for species diversity. The species you collected came from one group (see pie chart below). Your class should be pleased to have made this contribution to the [International Barcode of Life](#) project, the largest endeavour in biodiversity science.
