

Individual Trap Report:

Strathroy District Collegiate Institute

Trap # EQP-CLL-498

Your classroom made an important contribution to the spring 2014 [School Malaise Trap Program](#) and helped to make it a huge success. Your trap collected a total of 195 specimens in week 1 and 248 specimens in week 2. Summed across the two weeks, your sample ranked 17 out of 58 for the total number of specimens collected. Within your sample, there were 71 species, which ranks your sample 6 out of 58 for species diversity. The species you collected came from several different groups (see pie chart below) and 11 species were *only* collected in your trap. Your class should be pleased to have made this contribution to the [International Barcode of Life](#) project, the largest endeavour in biodiversity science.
