

## Individual Trap Report: École Précieux-Sang Trap # EQP-CLL-558

Your classroom made an important contribution to the Spring 2015 [School Malaise Trap Program](#) and helped to make it a huge success. Your trap collected a total of 320 specimens in week 1 & 2 and 110 specimens in week 3. Summed across the three weeks, your sample ranked 37 out of 68 for the total number of specimens collected. Within your sample, there were 114 species, which ranks your sample 22 out of 68 for species diversity. The species you collected came from several different groups (see pie chart below) and 32 species were *only* collected in your trap. Your class should be pleased to have made this contribution to the [International Barcode of Life](#) project, the largest endeavour in biodiversity science.
