

# Individual Trap Report: Yellow Grass School Trap # EQP-CLL-639

Your classroom made an important contribution to the Spring 2015 [School Malaise Trap Program](#) and helped to make it a huge success. Your trap collected a total of 7100 specimens in week 1 & 2 and 1800 specimens in week 3. Summed across the three weeks, your sample ranked 2 out of 68 for the total number of specimens collected. Within your sample, there were 151 species, which ranks your sample 5 out of 68 for species diversity. The species you collected came from several different groups (see pie chart below) and 41 species were *only* collected in your trap. Your class should be pleased to have made this contribution to the [International Barcode of Life](#) project, the largest endeavour in biodiversity science.
