

Individual Trap Report: Glenwood Elementary School Trap # EQP-CLL-639

Your classroom made an important contribution to the Fall 2015 [School Malaise Trap Program](#) and helped to make it a huge success. Your trap collected a total of 135 specimens in week 1 and 145 specimens in week 2. Summed across the two weeks, your sample ranked 48 out of 64 for the total number of specimens collected. Within your sample, there were 104 species, which ranks your sample 29 out of 64 for species diversity. The species you collected came from several different groups (see pie chart below) and 27 species were *only* collected in your trap. Your class should be pleased to have made this contribution to the [International Barcode of Life](#) project, the largest endeavour in biodiversity science.
