

# School Malaise Trap Program

## Individual Trap Report: Hamilton District Christian High School Trap # EQP-CLL-610

Your classroom made an important contribution to the Fall 2015 [School Malaise Trap Program](#) and helped to make it a huge success. Your trap collected a total of 1054 specimens in week 1 and 378 specimens in week 2. Summed across the two weeks, your sample ranked 7 out of 64 for the total number of specimens collected. Within your sample, there were 169 species, which ranks your sample 1 out of 64 for species diversity. The species you collected came from several different groups (see pie chart below) and 38 species were *only* collected in your trap. Your class should be pleased to have made this contribution to the [International Barcode of Life](#) project, the largest endeavour in biodiversity science.
