

School Malaise Trap Program

Individual Trap Report: Kate Chegwin Jr. High School Trap # EQP-CLL-593

Your classroom made an important contribution to the Fall 2015 [School Malaise Trap Program](#) and helped to make it a huge success. Your trap collected a total of 95 specimens in week 1 and 150 specimens in week 2. Summed across the two weeks, your sample ranked 51 out of 64 for the total number of specimens collected. Within your sample, there were 98 species, which ranks your sample 32 out of 64 for species diversity. The species you collected came from several different groups (see pie chart below) and 10 species were *only* collected in your trap. Your class should be pleased to have made this contribution to the [International Barcode of Life](#) project, the largest endeavour in biodiversity science.
