

# Individual Trap Report:

## Two Hills School

### Trap # EQP-CLL-553

Your classroom made an important contribution to the Fall 2015 [School Malaise Trap Program](#) and helped to make it a huge success. Your trap collected a total of 195 specimens in week 1 and 228 specimens in week 2. Summed across the two weeks, your sample ranked 37 out of 64 for the total number of specimens collected. Within your sample, there were 166 species, which ranks your sample 2 out of 64 for species diversity. The species you collected came from several different groups (see pie chart below) and 45 species were *only* collected in your trap. Your class should be pleased to have made this contribution to the [International Barcode of Life](#) project, the largest endeavour in biodiversity science.
