

## Individual Trap Report: Massey Street Public School Trap # EQP-CLL-788

Your classroom made an important contribution to the Fall 2016 [School Malaise Trap Program](#) and helped to make it a huge success. Your trap collected a total of 176 specimens in week 1 and 103 specimens in week 2. Summed across the two weeks, your sample ranked 51 out of 67 for the total number of specimens collected. Within your sample, there were 93 species, which ranks your sample 28 out of 67 for species diversity. The species you collected came from several different groups (see pie chart below) and 15 species were *only* collected in your trap. Your class should be pleased to have made this contribution to the [International Barcode of Life](#) project, the largest endeavour in biodiversity science.
