

Individual Trap Report: Mount San Jacinto College Menifee Valley Campus Trap # EQP-CLL-739

Your classroom made an important contribution to the Fall 2016 [School Malaise Trap Program](#) and helped to make it a huge success. Your trap collected a total of 134 specimens in week 1 and 64 specimens in week 2. Summed across the two weeks, your sample ranked 56 out of 67 for the total number of specimens collected. Within your sample, there were 94 species, which ranks your sample 27 out of 67 for species diversity. The species you collected came from several different groups (see pie chart below) and 74 species were *only* collected in your trap. Your class should be pleased to have made this contribution to the [International Barcode of Life](#) project, the largest endeavour in biodiversity science.
