

## Individual Trap Report: Western Center Academy Trap # EQP-CLL-714

Your classroom made an important contribution to the Fall 2016 [School Malaise Trap Program](#) and helped to make it a huge success. Your trap collected a total of 484 specimens in week 1 and 336 specimens in week 2. Summed across the two weeks, your sample ranked 25 out of 67 for the total number of specimens collected. Within your sample, there were 72 species, which ranks your sample 35 out of 67 for species diversity. The species you collected came from several different groups (see pie chart below) and 59 species were *only* collected in your trap. Your class should be pleased to have made this contribution to the [International Barcode of Life](#) project, the largest endeavour in biodiversity science.
